

Monsters

- ☆ Prior to starting the game everyone should draw their own monster. Use simple shapes when drawing your monster, so it is easy to describe.
- ☆ Each person takes it in turns to describe their monster and the rest of the group draws what they think it will look like. (It is important that the person describing does not let anyone see what their monster looks like until after they have finished).
- ☆ Once everyone has finished drawing, everyone shows their monsters to see how similar or different they are.

Here is an example of a monster and how we would describe it:

- Sausage shaped body
- 1 large eye
- 2 arms out of the sides of the body
- 4 legs out the bottom of the body
- 2 wings
- Sharp teeth
- Spikey hair
