OUR CHARITY

Championing inclusion for children and young people with additional needs and disabilities

Our mission is to address the challenges of isolation and exclusion experienced by children and young people with additional needs and disabilities.

To champion the right for inclusion for all children and young people with additional needs and disabilities across Berkshire, through our partnerships with families, volunteers, activity leaders and other voluntary and statutory sector organisations.

What We Offer

We support children and young people aged 5-19 years with additional needs and disabilities in the Wokingham and Reading Boroughs to take part in mainstream activities. We recruit and train volunteers to 'buddy' 1:1 with the children so they can join in and have fun. With our help children can access a wide range of activities including sports clubs, uniformed groups and drama classes, giving them a chance to build independence and vital life and social skills.

We run family events throughout the year, which are available to children and young people who are supported by Me2 Club.

We also run a SEND Youth Forum for young people aged between 8-25 years and their siblings every 6 weeks. We ran a pilot of our new Teen Group in October 2022 for our teenagers aged between 13-19 who will be planning social activities and fundraising to make these plans happen.

Meet Charlotte and Rose

Charlotte is 11 years old and has Prader Willi Syndrome, which means that she finds it difficult to understand complex tasks at Guides. She can also find the environment overstimulating, particularly if it is too loud. She is friendly and outgoing but struggles to maintain friendships and can get quite upset if she is feeling left out. At her previous school she was on a reduced timetable, meaning that she spent a lot of time at home with her Mum, isolating her further and putting more pressure on her Mum.

Charlotte's main goal was to be able to interact with her peers more whilst at Guides, so it was important to understand the triggers, which cause her to become overwhelmed and put reasonable adjustments in place to support her. Rose is fantastic at doing this, she was a Guide when she was younger, so she understands the structure of the group, which helps with explaining the games and activities. She has a calm, friendly and approachable demeanour which is compatible with Charlotte. They immediately formed a fantastic bond.

Having Rose at Guides with Charlotte has made a huge difference, she is now able to tell Rose if she is starting to feel overwhelmed, she can choose something from her special pink folder to help her to regulate and re-join when she is ready. Rose explains the activities in a way that she understands, which means she is able to earn badges and most importantly she has made friends, including one young person who she is especially close with.

It's an absolute joy having Rose as a buddy for my daughter Charlotte. Rose comes across as a very kind young woman, and so patient which is rather unique for a teenager. I feel full of appreciation for Rose spending her time with Charlotte. Charlotte really enjoyed having Rose as her buddy and feel quite contented in Rose's company. Thank you Me2 Club for finding, and arranging, such a brilliant buddy for Charlotte."
